National Summit Will Position Healthcare Leaders to Tackle Daunting Challenges

Health Dimensions Group National Summit Focuses on Preparing Healthcare Leaders and Executives for Success in 2017 and Beyond

MINNEAPOLIS (Dec. 28, 2016) – Twin Cities-based Health Dimensions Group (HDG) will prepare healthcare leaders and executives to tackle upcoming challenges at its seventh annual [National Summit](#). The National Summit, which focuses on the future of post-acute care, will take place February 27 through March 1, 2017, at the Rancho Bernardo Inn in San Diego, California. The Summit will feature nationally acclaimed experts who will share strategies to address the nation's daunting healthcare challenges for acute and post-acute providers.

"2017 promises to bring immense challenges for the healthcare industry. There is no better place than the National Summit for leaders to prepare for the future," said Sergei Shvetzoff, CEO of Health Dimensions Group. "We welcome healthcare leaders and executives to join the Summit to learn about healthcare innovation, community medicine, and the future of Medicare and other critical programs."

The three-day National Summit features sessions led by HDG executive leadership and consultants, as well as leaders in the industry. The event is available exclusively for healthcare executives.

Registration for the National Summit is available online at <http://hdgnationalsummit.com/> through February 17, 2017. Early-bird registration is available at a discounted rate through December 31, 2016. The full agenda, speakers list, and registration are also available at the Summit [website](#).

The Summit begins the afternoon of Monday, February 27, with a keynote address by Nicholas J. Webb, a renowned healthcare futurist, innovator and senior partner at Lassen Scientific, Inc. speaking about the importance of disruptive innovation and the future of post-acute care. Following Webb's presentation, there will be a panel discussion focused on how clinical, business, economic and consumer models are displacing existing healthcare models.

On the second day of the conference, attendees may choose to attend either *Leveraging the Value Proposition of Community Medicine* and *Developing Your Consumer Driven Service Line* or a second track, comprised of presentations titled *The Dynamics of Preferred Network Development* and *The Growing Role of Medicare Special Needs Plans*.

—more—

An additional, optional presentation titled *Owning the Risk: A Journey into Value-Based Transformation* will end the day. The conference concludes on Wednesday with Chris Van Gorder's closing keynote presentation *Innovative Leadership in Times of Change*.

About Health Dimensions Group

For more than 25 years, HDG has designed integrated and customized solutions for hospitals, health systems, long-term and post-acute care clients across the country. HDG offers industry-leading expertise in post-acute and senior care management and consulting services.
